

Position in Coastal Sustainability and Resilience

The Department of Civil, Construction, and Environmental Engineering (CCEE) at North Carolina State University (NCSU) in partnership with the University of North Carolina Coastal Studies Institute (UNC-CSI) invites applications at the Associate or Full Professor level to lead program development in Coastal Sustainability and Resilience. Engineering Sustainability and Resilience in the Coastal Environment is a new thrust area in the CCEE department, representing collaborative efforts in coastal, water resources, environmental and systems engineering as well as other traditional civil and construction engineering areas. UNC-CSI is a recently formed institute of The University of North Carolina (UNC) and is located in Manteo, NC.

An earned doctorate degree in civil, coastal, or environmental engineering (or a closely related field) is required. The successful applicant will have outstanding research and teaching capabilities, be comfortable working with the public and community stakeholder groups, have experience leading collaborative, multi-partner programs and studies, and have demonstrated the ability to build and lead research teams and to provide leadership in developing multi-disciplinary projects. The successful applicant will be based at the UNC-CSI in Manteo, NC and is expected to establish and maintain an internationally recognized research and education program in Coastal Sustainability through efforts with NCSU and UNC-CSI. Review of applications will begin on December 1, 2007 and the position will remain open until suitable applicants are identified.

Interested applicants should apply online at <https://jobs.ncsu.edu> (position number 04-28-0707). Attach .pdf files of a cover letter, complete resume, a statement describing the applicant's qualifications and vision pertaining to program development in coastal sustainability, transcripts of graduate work, and contact information for at least three references. Additional information about the department, UNC-CSI and the town of Manteo can be found at www.ce.ncsu.edu, www.csi.northcarolina.edu and www.townofmanteo.com.
